REAL BATTLE AT LAST

Many Brazilians Killed and Wounded in a Fight Near Rio.

The Insurgents Landed at Nictheroy, but Were Forced to Retreat After a Severe Engagement.

RIO DE JANEIRO, Feb. 10 .- A strong force of insurgents from the rebel fleet landed yesterday at Nictheroy and gave battle to the government troops. Many were killed and wounded on both sides. Peixoto's soldiers, under command of Gen. Argott, made a stubborn resistance. The insurgents did not gain a material advantage, and after a severe engagement

they were forced to retreat. The commanders of the Brazilian rebel war vessels, Tiradentes, Santos and Bahia, suspected of disloyalty, have been deprived of their commands and others have been appointed in their places.

Rebels Win a Battle.

WASHINGTON, Feb. 10.-The Navy Department to-day received the following cable from Admiral Benham at Rio, dated yesterday: "This morning there was a sharp engagement at Areia Point, resulting in some insurgent success." Areia Point is a projection of land not far from Nictheroy, which is in the same part of the Bay of Rio de Janeiro. Apparently Areia Point would be a good place for land operations against Nictheroy.

UNCLE SAM THREATENS.

Will Send an Ironclad to Syria if Americans Are Not Released.

PARIS, Feb. 10.-A Constantinople dispatch to Le Temps says: "Alexander W. Terrell, United States minister, has demanded the immediate liberation of two Armenians who are American citizens and are prisoners in Iskanderum, northern Syria. He has threatened, in the event of a refusal, to send an iroclad to Iskander-

"Serious riots have occurred in the Angoria districts, and two hundred cavalry have started from Constantinople for Yusgaz. The populace of Amasia, on the Yes-hil-Irmak, broke into the jail recently, and freed several Armenian prisoners. Seditious placards have been posted in both cities, and the authorities have arrested many persons, including seventeen Mussulmans who plotted to massacre Christians.

Ways of Armenians.

WASHINGTON, Feb. 10.-The reported action of Minister Terrell in demanding the release of two Armenians imprisoned by the Turkish government does not surprise the State Department. As it is expressed there: "The Armenian question we have always with us." They have, however, no information of any threat by Terrell to send for an ironclad. The Armenians in the United States recently have been conducting an organized agitation for the protection of naturalized Armenians from the exactions of the Turkish government. There are a large number of these cases before the State Department, and there is more than a suspicion in some of them that there is an abuse of the privileges of American citizenship. The indications are that some of these men are now over here simply to secure citizenship and then go back to live in Turkey with the purpose of securing protection from the United States government. This is accorded them on being demanded. The Turkish government does not recognize the expatriation of its subjects, but keeps those who claim American citizenship in prison until they can

THE TIMBUCTOO MASSACRE. Premier Cassimir-Perier Says France

Has Been Taught a Lesson.

PARIS, Feb. 10 .- The Dix Neuvieme Secle says the Cabinet will probably send reinforcements from Senegal to Timbuctoo, where Captain Phillippe, with a small French force, is holding the city against the Tuaregs. The paper adds that it is likely that the Fouth Soudanese battalion will be sent to the aid of the French troops and that Colonel Archineard, commander of the French Soudan, will be in command of the reinforcements.

In the Chamber of Deputies, to-day, M. Cassimir-Perier, the Premier, made a long statement in regard to the disaster to the column commanded by Colonel Bonnier near Timbuctoo. The Premier said the government had nothing to conceal, and that it did not desire to minimize the gravity of the situation, but this was not the moment, he added, to inquire whether there had been any act of excessive courage or imprudence. On learning that Timbuctoo had been occupied by the French troops, the government telegraphed to Colonel Bonnier to return to France as soon as the circumstance permitted. In the meanwhile it counseled Colonel Bonnier not to undertake any fresh act of aggression, and suggested that all possible prudential measures be taken. The Premier remarked that after having read the official dispatch from the Governot of the Soudan he did not know whether the French officers were dead or whether they were only missing. But instructions had been sent to the Govof the Soudan and to Governors, with the result reinforcements were on way from Algeria and from other places, and it was expected that the French at Timbuctoo would soon be relieved. There could be no question of evactuating Timbuctoo. (Cheers.) The incident, he added. conveyed a lesson to France, and she would not forget that necessary measures should be taken to prevent its recurrence. "We are convinced," the Premier finally remarked, "that the Chamber does not desire to discuss the merits of the case at the present moment." (Cheers.) The interpellators agreed to postpone any further discussion of the Timbuctoo question, and the Chamber of Deputies ad-

Swept by a Cyclone.

PARIS, Feb. 10.-The French government has received a dispatch saying that a cyclone swept over the town and harbor of Diego Suariz, near the north extremity of Madagascar, on Feb. 5, doing immense damage. The enurch, hospital and other public buildings, in addition to two-thirds of the houses, were destroyed. The French transport l'Eure is ashore. Though many people were injured by flying debris and by the fall of the buildings, there has been no loss of life.

Return of Gladstone.

LONDON, Feb. 10.-A large crowd of people was in waiting at Charing Cross railroad station this afternoon anxious to greet Mr. Gladstone on his return from the continent. The Premier arrived in London at 6:25 p. m., and was warmly cheered by the people in waiting. He drove directly to his official residence.

French Ministry Sustained.

PARIS, Feb. 10.-After two days' heated discussion and Socialist protests against the closure of the labor exchange, the Chamber voted confidence in the government by 362 to 166, and thus sustained the Ministry's

A full investigation of the Kaukauna and Appleton affair is also demanded.

MUST PAY THE INSURANCE.

Verdict in Favor of a Woman Whose Husband Was Assassinated.

SAN FRANCISCO, Feb. 10.-The jury in the case of Mrs. Louis B. McWhirter against the Connecticut Mutual Life Insurance Company last night brought in a verdict awarding Mrs. McWhirter \$15,000, the amount of life insurance held by her husband. A year ago last August McWhirter, a prominent lawyer of Fresno, was, it was represented, called into the back yard at 3 o'clock in the morning and shot and killed. He held policies in four companies aggregating \$60,000. All the companies except the Connecticut Mutual Life paid their shares. The latter claimed that McWhirter had committed suicide, and re-

fused to pay. The death of McWhirter caused a great sensation all over California. He was a prominent Democrat and was engaged in a very bitter local political fight at the time of his death. It was asserted by Mc-Whirter's friends that he had been murdered because of politics and the bitter feeling between two factions of the Democratic party in Fresno was intensified. Some time after his death Richard Heath, a son of General Heath, one of the best known men in the State, was arrested on a charge of the murder. The evidence against him was purely circumstantial, and after a trial lasting many weeks and provoking numberless feuds, the jury disagreed and Heath was released on \$75,000 bail. His second trial was set for Feb. 14, but the case will probably be de-layed owing to an appeal to the Supreme Court for a change of venue, which was denied by the court of Fresno county. Heath was vitally interested in the outcome of the suit against the insurance company, as his defense was that Mc-Whirter committed suicide. Some testi-Some testimony used in the Heath trial was used in the suit against the insurance company.

time of the wreck. The Nipsic, undergoing repairs at Mare Island navy-yard, is to have her batteries changed for her service in the Bering sea patrol. Her present armament consists of one eleven-inch smooth bore gun, one three-inch breech-loading rifle and one twelve-pound howitzer. When she is next ready for sea, her battery will consist of two nine-inch guns of the smooth bore pattern, one sixty-pound breech-loading rifle, two six-pounders, two Gatling guns and three 37 centimeter weapons. Steamer Sunk in Collision. HONG KONG, Feb. 10.-The British steamer Hangchow, which sailed from San Francisco Dec. 8, bound for Sourabaya, has collided with an unknown vessel. After the collision nothing was seen from the Hangchow of the vessel that was struck, and she no doubt sank with all on board. The British steamer St. Asaph sailed from Hong Kong on Dec. 31, and there is a possibility that she was the vessel struck by the Hangchow. The St. Asaph was built in Newcastle, England, in 1883, was 280 feet long, 35.3 feet beam and 24.2 feet deep, and registered 1,199 tons.

Arrest of an Alleged Swindler. BOSTON, Mass., Feb. 10.-John W. Lake, for whom the police of Boston have been looking since last August, has been arrested in Chicago. He is wanted on the charge of conspiring to defraud various banking concerns of this city. On July 11, 1893, the swindling operations of a trio of conspirators were exposed by inspectors Houghton and Gerraughty. Two of the men were arrested and afterward convicted, while the third one, alleged to be Lake, made his escape by jumping out of a window. The man was arrested in Chicago on a charge of assault and battery at that place, and he will be delivered to the Massachusetts

officers upon the presentation of the requisition papers.

Murderer Released. FERGUS FALLS, Minn., Feb. 10. - The sweeping effect of the recent adverse decision of the Supreme Court on the insane hospital law was realized to-day when a brother of Gustave Truba, who killed his wife and calld last November, appeared at the hospital and demanded that his brother be allowed to go home with him. The authorities were obliged to yield to the demand, and Truhn was taken away. He was never arrested for his act, as he was so crazy at the time of the murder that he was taken to the hospital immediately.

Alleged Train Wreckers Arrested.

HOUSTON, Tex., Feb. 10 .- The officers in oursuit of the Missouri, Kansas & Texas train wreckers have trailed their way to the home of Jesse Dillingham, colored, who, with his wife, was arrested last night. NEWS FROM HONOLULU

American League and Annexationist Club Not Harmonious.

Minister Willis Not Alone in Refusing to Attend the Independence Day Celebration Last Month.

SAN FRANCISCO, Feb. 10.-The steamer Australia arrived this evening from Honolulu. The correspondent of the Associated Press, writing under date of the 3d inst.,

"There are indications that serious dissensions may occur between the American League and the Annexationist Club-rival factions of the American party. The American League has adopted resolutions affirming allegiance to the provisional government, to the end that the islands may be annexed to the United States. The resolution suggests if annexation is hopeless that a protectorate would be acceptable.

"In reply to President Dole's demand for an apology from foreign diplomates, the Japanese consul, Mr. Fuji, expressed his regrets for not attending the provisional government's celebration Jan. 17. The French and Portuguese commissioners also sent regrets, basing their action on the anomalous condition of affairs here. British Minister Woodhouse simply expressed regret for not accepting the invitation. "A proposition to import more Chinese la-borers has been defeated. This action is due to the fact that the Japanese government demanded that importation of Chinese should be controlled by the Japanese gov-

ernment.

"C. L. Carter, one of the provisional government's commissioners to this country shortly after the revolution, has written an open letter in reply to an article in the North American Review by F. R. Coudert, of New York. Among other things Mr. Carter says: 'What would you do if your President, as commander in chief, gathered your army and police about him in the city of New York, after exhausting every possible method of violating your Constitution in Congress, and declared his intention of promulgating a new one? If, from his attitude and expressions and the existence of a great popular alarm and excitement, a few of your leading citizens gathered together to organize a defense and appealed to your country for assistance in maintaining the integrity of your institutions would you not yourself rally to such call? Would you blame the Russian minister for landing men from one of his ships in the harbor to protect Russian interests, particularly if Wall street, Broadway and Fifth avenue belonged to Russian residents? Would you blame the Russian minister if he saw through the excitement that your President was in the wrong, would be defeated in the end and unhesitatingly expressed such an opinion? Would you not yourself be among the ranks of loyal citizens crowding to support your committee of public safety Would you not denounce any person who, after your success, charged that the presence of Russian forces had anything to do

"Paul Neuman, the ex-Queen's legal adviser, a few days ago attacked and beat H. N. Castle, editor of the Advertiser, with a cane. Thinks Cleveland Was Deceived. NEW HAVEN, Conn., Feb. 10 .- Prof. W. D. Alexander, Surgeon-general of the Hawailan Islands, and also special commissloner, who is visiting his son at Yale College, in an interview said: "I regard President Cleveland's course as most extraordinary, but I, like other Democrats at the islands, believe that the President has been deceived from the very start. Colonel Blount's investigation was, to my mind, like that of a detective working up a case for a client, and he certainly obtained only an ex parte result. As for Minister Stevens, the worst that can be said about him is that he was doubtless hasty in what he did. It will, however, be brought out that the British minister would have recognized the provisional government on the afternoon following the action of Minister Stevens had not he (the British minister) learned of the annexation scheme that was on foot. The provisional government is established and it will remain."

PURSE OF \$60,000.

Michigan Sports Would Like to Have the Corbett-Jackson Fight. NEW YORK, Feb. 10.-James Mitchell, president of the Otsego (Mich.) Sportsmen's Association, has sent the following dis-

patch to the Associated Press: "At a meeting of the sportsmen's association held to-day it was decided to offer \$50. 000 for the Corbett-Jackson mill, the fight to take place on Government island, in the Kalamazoo river, one mile from any railroad. The money has been subscribed by prominent business men of the place, who go into the scheme as a speculation."

"Mill' That Was Not Advertised. SAN FRANCISCO, Feb. 10 .- A rough and tumble street fight occurred late last night in which pugilists Young Mitchell and Jack McAuliffe played the prominent parts. Other actors in the scene were Ed Slegler and John Fox, theatrical men, friends of McAuliffe. Late last night the trio paid a call on Mitchell at his saloon, ostensibly to perpetuate the amicable relations which exconvivial party started on tour of the saloons in the vicinity. Harry Corbett's place was finally reached, and more drinks and an animated discussion as to the relative pugilistic abilities of Mitchell and McAuliffe were indulged in. It was on the sidewalk just outside that the latter, together with his two friends, made an attack on Mitchell, getting him down and kicking and pounding him into insensibility. The police were called and proceeded to subdue McAuliffe in a manner not in accordance with Marquis of Queensbury rules. All were arrested, but Mitchell was unable

CHICAGO, Feb. 10.-Young Griffo and George Lavigne, of Saginaw, Mich., fcught an eight-round battle at the Second Regiment armory, to-night, without gore or knock-out, ending in a draw. The fight, which was expected to be a lively one, developed into a simple boxing match, ending slightly in the Michigan boy's favor, with but little hot work. Two thousand spectators were sadly disappointed. George Si-ler acted as referee, with "Mysterious" Billy Smith behind Lavigne and Sam Fitzpatrick seconding Griffo.

A SMALL-SIZED RIOT.

Police Ordered from a Saloon and Assaulted for Refusing to Go.

There was much excitement at 11 o'clock last night at the "Tuxedo" saloon on North Pennsylvania street, near the Grand Opera House. The owners of the saloon are Murray & Fleming. Friday night patrolmen Curran and Holtz went into the saloon at 11 o'clock apparently to see that the closing law was obeyed. The owners of the place promptly closed, but seemed much offended that the officers should visit their place with such intentions, and they told the officers that if they came around at the same time on Saturday night and with the same intentions they would be ejected. Patrolman Curran promptly replied that he would be on hand, as it was his duty to see that all saloons were closed at exactly 11 o'clock, and he would make no exceptions in their case. At 11 o'clock last night the two patrolmen appeared at the saloon and were promptly ordered from the place. Of course, they did not go, and Fleming undertook to push patrolman Curran out. Curran grabbed Fleming and told him that he was under arrest. This greatly enraged Fleming and struck Curran then pulled out his mace and ordered the man to desist, but at this point several of Fleming's friends jumped at Curran and struck him. One of the men grabbed the mace from officer Holtz and hit Curran a vicious blow on the head, but the thickness of the policeman's hat saved him from serious injury. The fight from this point on was rough and tumble. The two officers fought gallantly with their opponents, five in number, but the combat was uneven in numbers, and finally Holtz was pushed through the door, after receiving a terrible blow on the head with a bottle. As soon as Holtz was outside he immediately called up police headquarters and help soon arrived, but all was serene and quiet by this time. Curran had remained inside, but the men offered no resistance after the door was shut. When Fleming, who was the only one of the party arrested, was taken to the patrol wagon he caught sight of Jean Harris, superintendent Powell's private secretary, and attempted to start another fight, but the presence of officers thwarted this movement. At the police station he gay his name as Cal Allen. He was released

A Female Convict Insanc. Cora Mosley, of Hamilton county, who was serving a two years' term at the woman's prison here for robbery, was yesterday paroled by the Governor and ordered removed to the Central Insane Hospital, having been adjudged insane. She was sent to the prison in November, 1892, and the parole provides that if she recovers her reason she shall be returned to that institution to serve the balance of her sentence. Counting good time she would have but a few months more to serve. She was removed yesterday afternoon to the Central Hospital. Her mania is not of a dangerous type, and it is thought her reason will soon be restored.

In some old clothing received by the committee was found a gold ring, which will be returned to the owner on identifying it at the committee's quarters.

Counterfeit Silver Dollars.

Two counterfeit silver dollars were passed on some dealers at East Market yesterday afternoon. The coins bear the dates of 1885 and 1888, and are an excellent counterfeit. They do not appear to be the production of the parties who successfully passed spurious money some weeks ago. Sergeant Schwab was informed soon after the passing of the money, but the guilty parties had disappeared. The latter were two white men in one instance, and a colored man in the other.

Col. Colbert's Success. The handshake of Col. Thomas Colbert

It is highly probable that Mr. Colbert will succeed Major Carter as secret service agent of the treasury at this point. The Colonel's friends, regardless of politics, are glad of his success.

COMMERCIAL CLUB ELECTION.

It Will Occur To-Morrow Under Australian System-Election Officers.

The election of eight directors of the Commercial Club for the next two years will occur in the club rooms to-morrow between the hours of 10 a. m. and 6 p. m. This election will be conducted under the Australian system. There are two tickets, known as the "regular" and the "independent." The nominees on the regular ticket are Col. Eli Lilly, Chapin C. Foster, Albert Lieber, Charles E. Coffin, Nathan Morris, W. B. Burford, Dr. W. N. Wishard and James R. Carnahan. The independent ticket is composed of W. H. Armstrong, John J. Cooper, J. S. Lazarus, John W. Heltzman, N. F. Dalton, A. P. Hendrickson, James R. Carnahan and Albert Krull. The independent ticket represents the opposition to the pres-

ent administration of the club. The indications are that a large vote will be polled. The friends of Colonel Lilly claim that he and the entire regular ticket will be elected. "It is the expressed feeling of many of the leading business men," remarked one of Colonel Lilly's friends yesterday, "that it will be extremely unfortu-nate if the regular ticket should not be elected. No man in the city has given so much time and money to public spirited work in Indianapolis, and if Colonel Lilly should not be elected at this time It is believed that it would be the worst possible discouragement to citizens of high standing undertaking public work. His friends declare that he has been unjustly and unfairly assailed, and that the hostility to him is malicious, which, it is believed, the club members will resent by their votes." The appointment of the election officers was announced yesterday as follows: Judge, F. W. Hamilton; inspector, Col. William M. Cochran; clerks, Louis A. Share and Louis H. Levey. Attention is directed by the club officers

to the requirement of the by-laws of the club, providing that "any member who shall be in default in the payment of his annual dues or installments of stock shall not be entitled to vote at any election.' The annual meeting of the club will be held to-morrow night in the assembly room, when the reports of the officers for the last fiscal year will be submitted and the result of the election announced. It has been reported that the supporters of the regular ticket will attempt to vote

proxies. Considerable feeling has been stirred up on this account, the partisans of the independent ticket claiming that such a method would be illegal. The votes are not east by shares of stock, but each member is entitled to but one vote, regardless of the number of shares of stock held. The independents claim that the right to vote is personal and cannot be delegated. The County Wants More Rent.

A committee from the unemployed was in conference with the County Commissioners yesterday. The question of cutting down the courthouse yard was discussed, and the commissioners said that if the city will increase the rents it pays in the basement of the building the matter may receive more favorable consideration. The unemployed committee arranged a meeting between the commissioners and the Board of Works, which will occur to-mor-

row. The stone-pile question will be talked

over by the two boards. Pushing the Pesthouse Project. Dr. Hayes, backed by the physicians, medical colleges and the press of Indianapolis, went before the County Commissioners yesterday morning and urged the body to come to some decision regarding the proposed construction of a pesthouse. Dr. Hayes stated that after the building is complete the city will take charge of t and bear the expense of keeping it up. The commissioners think that the city ought to bear some of the building ex-

THINKS HE KNOWS THEM.

Chief Splann Believes He Is on the Track of a Mysterious Couple.

Superintendent Powell yesterday received a letter from Ellettsville, this State, saying that about two weeks ago, a man and woman, strangers in that part of the country, had appeared there and taken up their abode in an abandoned schoolhouse. The comment on their presence caused them to move to an old cabin that had not been used for habitation for years, and which was not fit for cattle to live in. Soon after removing to this place they disappeared and have not been seen since. Several days after their departure the dead body of an infant was found, buried under several feet of leaves and dirt, all evidences indicating murder. It was thought that the parties had come from Indianapolis. Chief Splann said that he was not positive of this fact, but that he thought the parties are a man by the name of Hall and his wife, who disappeared from this city some time ago. Hall is connected with a thieving gang well known in this city, and, as there is a warrant out for his arrest, he, in company with his wife, left the city to escape arrest.

Beat the Laundryman.

Doc Lung, a Chinese laundryman at No. 212 West Washington street, was brutally assaulted last night by two of his customers. They came into his place, and as they were without money attempted to induce Lung to trust them for the amount of their laundry. This Lung would not do. and the two proceeded to knock him about. after which they procured their laundry and left the place. Lung informed the police, but the fellows could not be found.

Settled a \$200,000 Estate.

The estate of the late Daniel Richardson, involving nearly \$200,000, was satisfactorily settled in the Circuit Court yesterday morning. At the death of Mr. Richardson in 1892 his wife received nearly all of the estate. She felt that she did not want to take it all, and yesterday she settled one-third of the amount on Mrs. Hinckley, the widow of her husband's brother, who would have inherited under the provisions of the will.
